TECHNICAL SKILLS

Languages and Tools: JavaScript, Python, TypeScript, C++, Java, Swift, HTML, CSS, ReactJS, NextJS, React Native, NodeJS, ExpressJS, ThreeJS

Developer Tools: Visual Studio, CLion IDE, XCode, Git, Github, Supabase, Firebase, Rest APIs, Redux, Godot, Unity, Figma, Arduino

EDUCATION AND ACHIEVEMENTS

Loyola Marymount University Bachelor of Science in Computer Science	<i>Aug. 2024 - May 2026</i>
Glendale Community College Associate of Science in Computer Science	<i>Aug. 2022 - Jun. 2024</i>
Armenian Engineers and Scientists Association Club Member	<i>Aug. 2023 - Jun. 2024</i>
TUMO Center for Creative Technologies Certificate in Studio Arts	<i>Sep. 2017 - Sep. 2019</i>

PROFESSIONAL EXPERIENCE

Software Engineering Scholar Next Shift Learning	<i>Jun. 2024 - Aug. 2024</i>
- Developed a functional prototype of a feature targeting students with food insecurity, addressing issues in food security. - Collaborated with a team of 2 designers, 3 marketers, and 1 engineer to integrate the feature across Snapchat App. - Implemented user authentication, data storage solutions, and safety measures, ensuring secure and scalable access for users.	
Team Internship Program Intern USC Institute for Creative Technologies	<i>Feb. 2024 - May 2024</i>
- Designed a prototype of a feature for IOS and Android app for veterans with a team of 5 which performs emergency actions on life threatening situations. - Conducted extensive testing of user flows to optimize the feature's design for integration into the existing mobile application. - Implemented additional accessibility solutions for over 2 million veterans with hearing and vision disabilities.	
Math Instructor Mathnasium Learning Center	<i>Sep. 2022 - May 2024</i>
- Mentored students aged 5-17 in math skills by simplifying complicated concepts, improving their test scores by multiple letter grades. - Developed innovative strategies for managing kids who struggled with learning disabilities. - Created a supportive and engaging learning environment, encouraging students to build confidence in their math abilities.	

PROJECTS

Hive - Prototype feature for Snapchat	Link
- Technologies Used: <i>React Native, Supabase, Google Maps API</i> - Gained experience in integrating backend services and managing state in mobile applications. - Implemented ability for users to share pins and deals about food resources on Snapchat Map's Screen.	
Arastagh.am - Company Website	Link
- Technologies Used: <i>ReactJS, JavaScript, NodeJS, ExpressJS, Leaflet API, MUI</i> - Designed and implemented a responsive, category-based interface, enhancing user navigation and experience. - Integrated Telegram messaging via Node.js and Express.js, enabling direct communication through the platform.	
Kinoman - Trivia Game for movie enthusiasts	Link
- Technologies Used: <i>ReactJs, JavaScript, MUI, OMDB API, Open Trivia DB</i> - Enhanced proficiency in handling dynamic content and user interaction through integration with Rest APIs. - Implemented ability for users to skip questions, get hints, and play bonus trivia games with chosen categories
